

Model Range	Phase	Power	Application
 <p>400Hz ABLE20</p>	Input: Single Phase Output: Single Phase	1 to 5KVA	<ul style="list-style-type: none"> - Production Line - Aircraft Mock-ups - Laboratory - Repair Workshop - R & D
 <p>400Hz ABLE40</p>	Input: Single Phase Output: 3-phase Variable V + Hz Option	1.5 to 4KVA	<ul style="list-style-type: none"> - Production Line - Aircraft Mock-ups - Laboratory - Repair Workshop - R & D
 <p>400Hz ABLE30</p>	19" Rack Input: 1 or 3-ph Output: 1-ph or 3-ph	1.5 to 4KVA	<ul style="list-style-type: none"> - Production Line - Aircraft Mock-ups - Submersibles - Repair Workshop - R & D - Simulators - Marine
 <p>400Hz ABLE50</p>	Input: 3-phase Output: Single Phase	8 to 40KVA	
 <p>400Hz ABLE60</p>	Input: 3-Phase Output: 3-Phase	6 to 50KVA	<ul style="list-style-type: none"> - Plant room/Factory/Lab/Maintenance - Aircraft Mock-ups - Production Line - Simulators - Submersibles - Rotary Replacement
 <p>400Hz +28VDC ABLE80</p>	Input: 3-Phase Output: 3-Phase 28VDC Option ("Combo")	All-Weather Trailer, plinth, bridge mount. 15 to 120KVA	<ul style="list-style-type: none"> - Aircraft 400Hz static GPU - All-Weather, trailer or bridge - Hangar or Tarmac Power - Helicopters - Military Jets - Civils - Engine Test Rigs - Civil & military aircraft Interlock - With Aircraft Cables and Carriers
 <p>28VDC ABLE90</p>	Input: 3-Phase Output: 28VDC	All-Weather 400-600Amp	<ul style="list-style-type: none"> - 28VDC Aircraft GPU (TRU) - 2000+ amps peak output - Aircraft run and maintenance - Engine start - All-weather - Stationary or trolley
 <p>400Hz MIL</p>	Custom Specification	Custom	<ul style="list-style-type: none"> - Custom Military Applications - MIL-STD461C approved - Naval applications
